Stock offers immense future possibilities as a constant dividend
payer, with immense speculative features for large future profit.
Capitol Petroleum Has Paid Over \$40,000.00.

In cash dividends, to its stockholders, during the month of No-
vember, 1919, and will pay double that amount when the next quar-
terly dividend is declared, in February, 1920. See that you are one

Without Question Oil Is a "Master Fortune Builder"

Oil has produced more wealth and made more millionaires than
any other business in the world, during the same period of time, and
fewer people, have shared in it. False reports circulated throughout
the country, have, no doubt, kept hundreds of people from enjoying
a share of this great wealth producer, which is one of the greatest
that nature has ever bestowed upon mankind up to the present time.

This Is Your Last Opportunity

To secure Capitol Petroleum at ONE DOLLAR PER SHARE, ON
December 17th stock will advance. We offer a very liberal time pay-
ment plan, terms one third down and balance in two equal monthly
payments. All time payment subscriptions mailed on or before De-
cember 17th will be protected under the present price.

EYES OF THE WORLD FOCUSED ON MEXICO. TAMPICO,
MEXICO, IS NOW ATTRACTING THE ATTENTION OF THE LAR-
GEST OIL OPERATORS IN THE WORLD AND TODAY THE GREAT
INFUX OF FOREIGN CAPITAL EVER KNOWN IN THE HISTORY
OF INDUSTRY, IS TAKING PLACE.

During the past year, the oil measures of Mexico have been found
to cover a much larger area than had been hitherto known. Many
large and productive fields have been opened and at the present
time, there are 298 producing wells in full operation. The total
amount of oil brought to the surface in 1918, was \$2,828,838 barrels.
The greatest oil pool on earth is located in Mexico, and yet, only
eleven per cent of the potential production is now under operation.

The Capitol Petroleum Company

Has 1478 acres in the world's
and in four other famous oil producing localities, where are situated
some of the largest wells in existence. This company shows great
promise of being numbered among the world's very largest producers.
The Capitol Petroleum Company is making great progress toward securing
more valuable leases, and their engineers are constantly on hand
when new pools are opened up, securing options on good oil properties.

The Mexican Government Announces

That care will be taken to protect the nation in development
and enjoyment of those deposits and to prevent their monopolization.
In fact, none of the recent disturbances in Mexico, have affected the
holdings of this company in the least.

Millions of Dollars of Both

American and European gold are pouring into Mexico, and this
country will soon find itself undergoing one of its greatest eras of
development, which is bound to have its effect in retarding the in-
ternal strife which has been holding back this rich nation for the
past decade.
